

Ronald McDonald House;

Have I ever thanked you for my stay? Well probably not by letter, but certainly it's in my heart.

At the time of our traumas we never want to look back at the close place of it. But when we get home, we appreciate the way you girls (and guys) take care of us from rooms to kitchen to basement. So now, I take a moment to thank you all for your 1) interest in our lives, 2) care for us, 3) privacy, 4) availability and everything in between. Interest - you all remembered mine and Rachel's name and asked about her. Care because where else can we lodge? Privacy because we are individually separate - not in one big bay area. Availability because we have access to food, laundry, computers, TV and conversation.

Thanks for all you give us.

Karen
